Clay County Water & Sewer District

New Service & Existing Service – Customer Notes

1. Applicable System Development Fee (SDF), tap fees and a \$200 security deposit and an application for service are required for each account ***before*** connections are made. SDF applies to both new construction as well as existing structures which does not currently have water and/or sewer services provided by the CCW&SD.
2. Meters are to be set at customer's property line at the Clay County Water & Sewer District's discretion. Connection from a meter to dwelling is solely the customer's responsibility.
3. All meters and materials used to make connections from water main to the meter remain the property of the District.
4. Connection charges for new water and/or sewer taps will be quoted after property is inspected.
5. When establishing water and or sewer service, if costs exceed standard connection charges, the costs will be charged to the customer. Any and all under road boring and/or drilling of any kind required to make the connection is the financial responsibility of the customer.
6. Road pavement repair is the sole responsibility of the customer and must be satisfactorily completed before the connection to water and or sewer is made.
7. Prior to the Clay County Water & Sewer District commencing work on your project, the customer must produce satisfactory evidence of ownership, rights-of-way and/or easements required to make the connection.
8. All connections are required to have check valves, back-flow prevention and pressure reducing valves, if needed, at owner's expense. For all sewer taps, the responsibility of the District ends at the sewer tap. All remaining service connections to sewer tap are the responsibility of the customer.
9. Service will be terminated and/or the meter pulled for accounts that are more than 45 days delinquent or if your balance exceeds your security deposit on file
